DISICILIA

Wine District of Sicily

The best of Italian wine

The sicilian wine district with its over one hundred companies is located in a special land which in over thousands of years has developed the culture of wine. Who knows what inspired the ancient Greeks and the Romans themselves, thousands of years ago, to develop the cultivation of wine here in Sicily and create a history that today still reflects the indissoluble bond between man and nature.

Sicily inevitably makes you fall in love with its scenery, aromas, flavors and uniquenesses in the world that gives all its wine an inimitable flavor.

Each place in Sicily has its own particular vocation for producing wine,

differentiated by climate and cultivar altitude; traditions that change from province to province, but always converge in search of excellence.
